

WHITESTONE MOUNTAIN ORCHARD

TONASKET, WA

Whitestone Mountain Orchard began in 1993 with a dedication to land stewardship and a vision to run a small family farm—three generations later, farmers Claire and Hal manage a thriving operation producing heirloom varieties and new cultivars of apples, pears, and currants harvested at peak ripeness to deliver just-picked flavor. Their farm is built on biodiversity and certified through The Real Organic Project, a farmer-led initiative to increase transparency in the food system and protect the integrity of the organic movement.
