

FIVE FOX FARM

MOIESE, MT

Five Fox Farm operates on a small but fertile piece of land in the sunny Moiese Valley. We currently grow a diverse variety of mixed produce including garlic, squash, onions, and asparagus. The remainder of the land is devoted to a orchard and a stand of alfalfa. We are Certified Organic by the Montana Department of Agriculture and use no synthetic herbicides or fertilizers—instead, we rely on a system of cover crops, compost, and crop rotation to maintain soil health and productivity.
