

KALISPELL KREAMERY

KALISPELL, MT

Kalispell Creamery provides communities throughout Western Montana with the freshest farm-to-table dairy products. The operation emerged from one family's effort to pool their talents and keep their farm alive by bringing cream-on-top milk, butter, and yogurt production on site—right next door to where their happy herd grazes. The creamery puts sustainability at the forefront of its mission, which includes keeping their cows healthy without using any antibiotics or hormones. In fact, the herd is so healthy that the dairy's manure is purchased for use by farms and home gardeners across the country.
