

# THE OIL BARN

## SHELBY, MT

The Oil Barn is a small, women-owned business located in the Golden Triangle of Montana. We pride ourselves on being grown in Montana, Made in Montana, and Organic. Our carefully selected non-GMO safflower seed is grown on organic, family farms in Montana. It is cold-pressed in small artisan batches, unbleached, and unrefined in our zero waste facility. Over our years of organic farming, we have developed a deep respect for the earth and understand the value of healthy farming practices.
